

EVANSVILLE MUSEUM OF ARTS, HISTORY & SCIENCE

EYKAMP PAVILION ADDITION

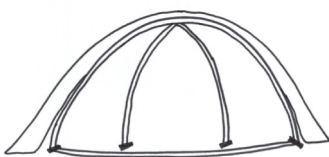

COMPLETED IN 1879

The Eykamp Pavilion addition features a unique acrylic glass dome theater.

- **Goal:** Create a dome theater of your own.
- **Think About Your Structure:** Think about the shape of the dome. Since the sides aren't flat, what material would be easier to work with?
- **Hint:** Start trying out different materials to build your dome. If something doesn't work easily with the dome shape, try a different material.
- **Now What?** Why would a dome theater be useful? Think about what could be displayed inside the dome and how people would react to it.

- pipe cleaners
- tape
- fabric piece
