

THE REPUBLIC BUILDING

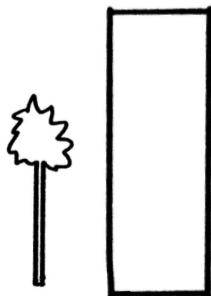

COMPLETED IN 1971, REPURPOSED IN 2018

The Republic Building's landscape is recognized for the allée of trees. An allée of trees is a row of trees that are side by side and line up exactly.

- **Goal:** Your task is to create an allée of trees.
- **Think About Your Structure:** How will you make sure that your trees are lined up exactly?
- **Hint:** Use a ruler or edge of a box to help create a straight line to start your allée of trees.
- **Now What?** What are the benefits of having an allée of trees in the landscape of a building?

• Cardboard Box for reference
